Tentative Agenda

Developing ambitious climate strategies in transport

Thursday, 05 March, 2020

Moderator: Daniel Bongardt & Urda Eichhorst

Background

As part of the Paris Climate Agreement, all countries committed to submit their Nationally Determined Contributions (NDCs) every 5 years to the United Nations’ climate change secretariat. First submission took place in 2015 and initial NDCs are currently undergoing their first revisions for 2020. In a few years, countries will start to revise their NDCs again for 2025, providing the opportunity for much enhanced ambition, based on positive experiences from implementation and increased understanding of opportunities, as well as needs for long-term decarbonisation strategies.

Objective

The workshop aims to:

- provide participants with a good understanding of the current status of transport in NDCs and the NDC revision processes,
- discuss ways to better align transport actions with national climate targets and long-term decarbonisation strategies in the context of upcoming NDC revision processes and NDC implementation,
- share experiences on increasing climate ambition in transport (with representatives of the Transport Decarbonisation Alliance (TBC)).

Methodology

The workshop combines interactive elements with input presentations and peer learning. At the end of the workshop all participants will receive a graphic recording of the workshop results.

Target group
Representatives of Transport Ministries and Environment Ministries in charge of national transport policy.

</tbody>
</table>
14:30 Exploring Case Studies of Scenario Processes and Models
- Vietnam
- Costa Rica

15:30 Coffee Break

16:00 World Café: Lessons from the NDC Process
- Preparing the NDC groundwork
- Developing the NDC through a multi-stakeholder process
Implementing the NDC – Implementation plans, sectoral action plans, challenges etc.

17:20 Summary of Day 1

Wednesday, 04 March 2020

10:30 Welcome
Daniel Bongardt, GIZ

10:35 Summary of the World Café findings on Day 1 and recommendations for NDC development
Maika Müller, Advisor to BMU

Increasing Ambition

11:00 Increasing Ambition - towards long-term decarbonisation (organised by TDA)
Practical lessons and enabling frameworks for decarbonisation.
TDA representatives
- Netherlands
- Scotland
- TEVVA
- DHL (TBC)

12:20 Summary of Days
Transport in the 1st round of NDCs; current trends in sectoral NDCs and international cooperation.
